

Dear Brothers and Sisters,

Loving greetings to you in the name our Lord Jesus Christ. We very happy to let you know that the care and support center for Hiv/Aids and T.B Patients has been started with 5 patients. Praise the Lord! The 2 nd and 3 rd phase work is in progress. Please pray for the quick completion of the project.

We thank all the donors who have donated the money to construct the project. We still need of 2 more cottages. The project has been started with 5 patients sponsored by Sis. Diann. Mohnton, PA. She also sent some special gift for special electrical connection to finish Jesus cottage. God has inspired Praveen to concentrate on the the project and serve these patients. One 4 year old boy also there along with his mother who is also positive. Cots and beds and other necessities were sponsored by Rev. Ingeborg Bergner, Germany. One special gift came from Sis. Marnee; Tulsa, to meet things needed in the project. We had phone connection to the centre. Last year 3 the lap-tops from Bro. Chad and his family from St. Joe, Mo, have come to the mission. 2 of them are more useful in the project for counseling patients, and other purposes. One attendant and one evangelist is also kept there for taking care of the patients' spiritual and physical problems... We want to take care of more patients in the days to come. If anyone wishes to sponsor a patient, they are requested to donate 40 USD per month. We once again **THANK YOU ALL** the donors, churches, institutions, organizations etc...for their payers and donations, and for their labor and support. I thank all the people who have involved in the project directly or

indirectly. **MAY GOD BLESS YOU ALL.**

Yours in Christ,  
Bro. Henry and Praveen
